Support/update policy and pricing

One year of support and updates is included in the purchase price for new licences. This covers:

- One year of access to standard Araxis technical support services (use the [contact form](#) to obtain support);
- Entitlement to any new updates to the product you have purchased that Araxis might release during your year of support.

For more details about how this works, please see [Understanding Serial Numbers, Support Expiry and Support Renewal](#).

Once your period of support has expired:

- You can choose whether to renew support for another year.
- Your current Merge installation will remain fully-functional whether or not you renew.
- To renew support (after the first year) costs the equivalent of less than \$0.25 / day per user, so it is extremely cost effective to stay up to date with Merge.
- You will need to renew if you wish to access technical support, or if you wish to be able to use releases of Merge made after your support expired.

<i>Product Code</i>	<i>Quantity</i>	<i>USD (\$)</i>	<i>GBP (£)</i>	<i>EUR (€)</i>
Merge Standard Support and Updates Per Subsequent Year <i>(Optional)</i>				
MGS-SUP	Per User			€39
Merge Professional Support and Updates Per Subsequent Year <i>(Optional)</i>				
MGP-SUP	Per User			€79

Delivery

Merge is delivered electronically: you will be emailed your serial number(s) and can [download](#) the product from this website. This eliminates shipping charges and shipping delays. It also avoids customers installing from cd-rom only to find immediately that an updated version is available online. Finally, it reduces the environmental impact of Araxis operations.
