

How to Buy Ketura & Price List

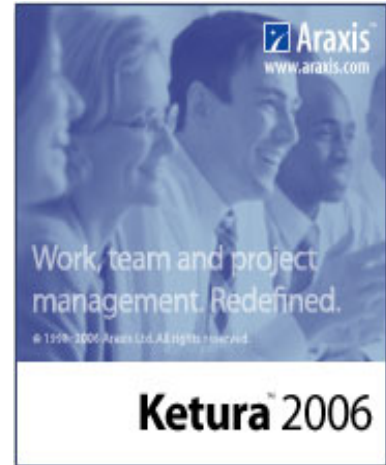

To buy Ketura for the first time, you can:

Purchase Ketura from NRT AB. A licence file suitable for use with the latest version of Ketura will be emailed to you after purchase. The Ketura software itself can be downloaded from the Ketura Download Page.

NRT AB will accept purchase orders (POs), cheques, credit cards, bank transfers and other common forms of payment.

To purchase additional licences, or to renew support:

Contact NRT AB to obtain a quotation.

Price list

Bring project management to your team by taking advantage of Ketura 2006.

Product Code	Quantity	Price Per User		
		USD (\$)	GBP (£)	EUR (€)
<i>Price Per User, Including One Year of Support and Updates</i>				
	1-4			€249
	5-19			€209
	20-99			€169
KT	100+	Please Contact NRT		
<i>Support and Updates Per Subsequent Year (Optional)</i>				
KT-SUP	Per User			€79

Example

If you wish to buy licences for 5 users, the USD price will be $5 \times \$249 = \1245 .

Buy now

Buy securely from NRT AB.

Important

See the sidebar to the right for important information.

Support and updates

One year of support and updates is included in the purchase price for new licence. This covers:

- One year of access to standard Araxis technical support services (use the [contact form](#) to obtain support);
- Entitlement to any new updates to the product you have purchased that Araxis might release during your year of support.

Subsequent purchases will have the support/updates portion pro-rated to match the first purchase anniversary. This means that support for all your users will be due for renewal at the same time. [Contact NRT](#) for a quotation if you wish to order additional licences.

Once your period of support has expired:

- You can choose whether to renew support for another year.
- To renew support (after the first year) costs the equivalent of less than \$0.28 / day per user, so it is extremely cost effective to stay up to date with Ketura.
- You do not have to renew support; your current Ketura installation will remain fully functional whether or not you do.
- However, you will need to renew if you wish to access technical support, or if you wish to be able to use releases of Ketura made after your support expired.

Delivery

Ketura is delivered electronically: you will be emailed a licence file that you can install on your Ketura server. Ketura itself is available for download from the [Ketura Download Page](#). Electronic delivery eliminates shipping charges and shipping delays. It also avoids customers installing from cd-rom only to find immediately that an updated version is available online. Finally, it reduces the environmental impact of Araxis operations.
